# Flesh and Blood

**Verse 1:**

```
Am                    F                                  C
      Flesh and blood        The Son of God  has come
            G             Am
      His glory set aside
Am              F                                        C
      In the dust                Human just like us
Am                F                        C
      Flesh and blood reaching out to touch
            G                      Am
      Our weaknesses to bear
             F                        C      G
      In his hands holding every care
Am                 F                  C/E       G/B      Am
      He felt the brokenness we feel but never broke
              F               G
      Every grief of ours he knows
```

**Chorus:**

```
             F                G                        Am
                  Who is like Him? Like our Savior?
                       Am/G          F
             Made low, the One Most High
             F                G                        Am
                  Who is like Him, Like our Saviour?
                       Am/G   F                     G         Am
             The Life that lived to die       Who can comprehend?
```

**Verse 2:**

Am F C
Flesh and Blood Broken on the cross
G Am
In death His glory hides
F C G
In the grave There his glory waits
Am F C G Am
Uncontainable, our Saviour is alive
F G
Risen now to glorious light

**Tag:**

F C
Jesus, the Lamb for sinners slain
G Am
now lifted to the highest place
